

EMERGENCY INFORMATION

REMINDER

To Parents/Guardians Of Students In The Carteret County Public School System 2017-2018

Weather conditions, power outages or other emergencies can make it necessary to alter the schedule of the regular school day.

When school schedules must be changed, the announcement will be made by using the school system's rapid notification system. Because this system uses phone numbers, it is important for parents to keep school office staff updated with contact phone numbers.

The information is also posted on the school system's facebook page and on the school system's website at www.carteretcountyschools.org under the heading "Closings / Delays". Please remember to refresh each time the site is checked.

The information is also shared with area television stations and several local radio stations.
